*This property is one of the Tamarisk Ranchos cluster of 16 single-family residences, designed by the in-house architects for developer Lou Halper's Devon Construction Company in 1958. Although each one-story house is free-standing, they share a cooperatively-owned central park and swimming pool area towards which all of the residence's rear elevations face. The cluster is located one block east of the Tamarisk Country Club golf course. The 70-435 Los Pueblos Way residence has a butterfly roof covering 1,982 interior square feet with three bedrooms and 2.5 bathrooms. Exteriors are sheathed in board-and-batten and medium-smooth stucco. Exposed roof beams project beneath deep eaves that shade most elevations. Windows are fixed, clerestory, and casement. The meticulously maintained park-like grounds include vast lawns, trimmed hedges, and a virtual grove of mature date palms. The house is original and in excellent condition. The property would contribute to a potential historic district that could be designated under an existing or proposed local ordinance (a "5D1" National Register Status Code).*
