

CREATE YOUR OWN CAR EMERGENCY BAG

Many people have emergency supplies stored at their homes but do you have supplies in your vehicle? What would you do if you were stuck away from home such as at work or on a freeway during an emergency? Would you be able to survive for a potentially extended time? The Rancho Mirage Emergency Preparedness Commission suggests that you consider keeping a bag in your car with supplies such as:

- Comfortable shoes and socks
- Extra clothing such as jacket, pants, short pants, bandana, hat, undergarments, shirts
- Water
- Blanket/emergency blanket
- Food (e.g. dry granola bars)
- Flashlight/hands-free headlamp and spare batteries
- First Aid kit
- Power converter with standard plug outlet that you can plug into your power port (for charging cell phone, laptop, etc.)
- Miscellaneous supplies such as a multipurpose tool, note pad and pencil or pen, book/reading material, toothbrush, lighter/matches, umbrella, small amount of cash, sunscreen, hand sanitizer, wet wipes, toilet paper, towel, and plastic bags.
